

# SPECIALIZING IN THE PRODUCTION OF WATER MEASURING INSTRUMENTS

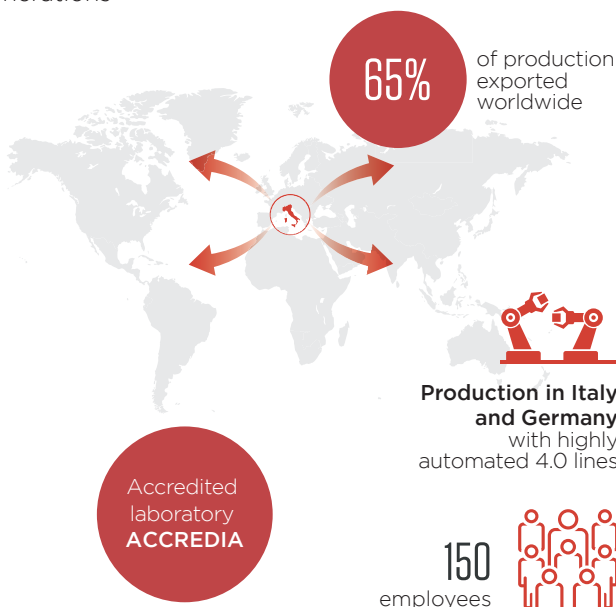

Independent company for four generations

**100 YEARS OF WATER METERS:**  
from mechanical meters to smart  
meters for modern connected cities

**28** certified benches  
for metrological  
verification  
(DN 15 to DN 400 mm)

**State-of-the-art  
integrated logistics**  
for better  
customer service

## HISTORY

- 1919**  
Foundation and distribution  
of the meters of the Schinzel  
company in Vienna
- 1932**  
Development of proprietary  
product line and subsequent  
implementation of production  
lines
- 1950**  
Consolidation of the product  
range and expansion  
of activities abroad
- 1993**  
Horizontal factory  
transformation and Europe's  
first fully automated line for  
the production of water  
meters
- 1995**  
Introduction of the first  
meter reading systems
- 2007**  
Entry into the market  
of thermal energy meters
- 2015**  
"Connecting" to the IoT  
world with new smart meters
- 2019**  
Expansion of the plant  
and new automated lines

## COMPANY CERTIFICATIONS

ISO 9001

ISO 14001

ISO 27001

## ASSOCIATIONS

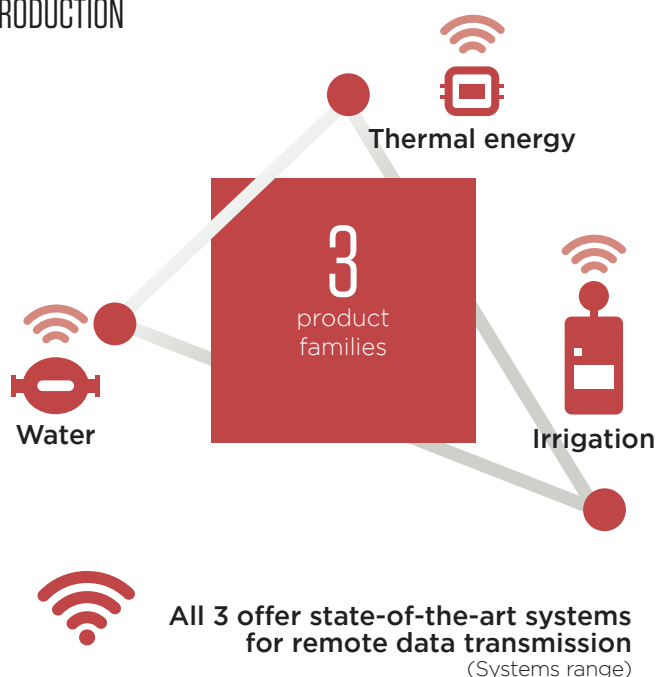

**ANIMA**  
CONFINDUSTRIA  
MECCANICA VARIA

**LoRa  
Alliance  
Member™**

## PRODUCTION

## Maddalena meters help utilities and the submetering market thanks to:

**Features in line with recent  
European directives**  
(metrological and health)

**Measurement efficiency up to +15%**  
compared to old meters

**Flexibility in remote data  
communication** with both mobile  
and fixed network reading systems

**Real-time communication**  
of leaks and anomalies

**Optimization of distribution  
networks**

**Energy saving**
